To the Esteemed Members of the Kansas Bureau of Investigation:

As you are likely aware, a variety of very serious and troubling allegations have been made in regard to former Kansas City, Kansas police detective Roger Golubski, as well as other members of his staff. These allegations include charges of sexual abuse of women, malicious actions toward citizens, and framing of individuals for crimes they did not commit (specifically in the case of Lamonte McIntyre who was recently exonerated). These allegations have shown a pattern of abuse toward poor, minority (people of color) residents – specifically the people Golubski and his force were employed by taxpayers to protect. Despite the preponderance of information that has been brought forward, Golubski has not been held accountable.

We, the signed members of the Kansas Legislature, along with community partners, ask you today to thoroughly investigate this situation immediately. Golubski, and other members of their force involved must be held accountable for their actions.

Signed,

Senator Marci Francisco
