

Public Policy Engagement

Important for our Stakeholders

Evergy's mission is to empower a better future. Evergy's vision is to become the best energy company – for our employees, customers, shareholders and the communities that we have the privilege of serving. Our ability to pursue our mission and achieve our vision – for the benefit of all stakeholders – depends on sound public policies, laws and regulations at the national, state and local levels that enable us to provide reliable and affordable electricity to our customers in a safe and efficient manner. As such, not only do we believe it is appropriate to actively participate in the political, legislative and regulatory environments, we believe it is critical to do so – our success, and the success of our stakeholders, depends on us doing so.

Political Action Committees

Evergy has Political Action Committees (PACs) through which employees may participate in the political process. These nonpartisan, voluntary PACs are organized and operate separately from Evergy, as required by law. Our PACs are governed by employees from across the company, and PAC contributions are made without regard to the private political preference of any director, executive or employee.

Sound Governance and Board Oversight

Our public policy governance structure provides for Board of Director and committee oversight, and a system of checks and balances, that seeks to ensure that corporate assets are utilized in a manner that benefits all of our stakeholders. Our Board and its various committees regularly review and discuss public policy, legislative and regulatory matters that may impact Evergy and its stakeholders. Our Board approves a political contribution budget, based on a recommendation from our Nominating, Governance, and Corporate Responsibility Committee. The Committee oversees and reviews Evergy's corporate responsibility activities, monitors corporate contributions and reviews – at least on an annual basis – a report on corporate political contributions. Our policy on corporate contributions requires dual approval of any contributions from our Chief Executive Officer and our Chief Customer Officer / Senior Vice President, Marketing and Public Affairs, and we document all contributions.

Compliance

At Evergy, complying with applicable laws and regulations is only a starting point. Our Code of Ethics embraces Evergy's view that our employees and persons with whom we work should always do the right thing, from an ethical perspective, even when no one is watching.

Disclosure

The following pages include our policy on political contributions and our inaugural list of corporate and PAC contributions, along with other information relevant to our public policy engagement activities.

Evergy

Policy on Political Contributions

Overview

Energy regulation, environmental issues and other policy matters can significantly impact Evergy, Inc., its subsidiaries (the “Company”), and also the Company’s customers, communities and other stakeholders. Consequently, it is appropriate and in the Company’s best interests, to be engaged in legislative and regulatory matters concerning the Company and to permit corporate political contributions to candidates that support public policies important to the Company and the energy industry.

Purpose

The purpose of this policy is to establish the general criteria and process for evaluation and approval of all Company political contributions at the local and state levels.

Scope

This policy applies to all employees including Wolf Creek generating station employees.

Main Policy Body/Specific Guidance

Board Authorization and Review

The Board of Directors of the Company, based on a recommendation from the Nominating, Governance, and Corporate Responsibility Committee, will authorize an aggregate amount of political contributions and expenditures to, or for the benefit of, candidates for state and local offices during a specified period of time. The approval may specify separate amounts for direct, in-kind, non-partisan or other contributions. Government Affairs will provide an annual report, and interim information, as requested, to the Nominating, Governance and Corporate Responsibility Committee on all corporate political contributions made by the Company.

Corporate Approvals and General Criteria

Government Affairs will review each corporate political contribution request for legal and policy compliance, and provide a recommendation to the Chief Executive Officer (CEO) and Chief Customer Officer / Senior Vice President, Marketing and Public Affairs (SVP) for approval. In determining whether to approve a particular request, the CEO and SVP may consider, among other factors: the merits of the candidate, the election or ballot initiative; the value of the contribution to the election or ballot initiative; the quality and effectiveness of the organization to which the contribution will be made; the relationship to the Company’s strategy and values; and the appropriateness of the Company’s level of involvement in the election or ballot initiative. Government Affairs will document the

reasons for the contributions and will maintain a list of all contributions provided to state or local candidates and committees, including the recipients' names, amounts and dates of the contributions.

Compliance

Government Affairs is responsible for compliance with Company campaign finance reporting and public disclosure obligations required by state and local laws. All contributions will comply with (i) applicable laws and regulations in the jurisdictions in which the contributions are made, (ii) this policy and all other applicable policies and procedures of the Company, and (iii) the Code of Ethics.

Disclosure

On an annual basis, and subject to the approval of the SVP and the Senior Vice President, General Counsel and Corporate Secretary, Government Affairs will publish on a Company website a list of contributions provided to state or local candidates and committees.

Other

Contributions permitted under this policy will be made directly to candidates. Contributions will be made to conduit or intermediary organizations only under exceptional circumstances. The Company may, however, support nonpartisan programs to encourage voter registration, political awareness or responsible citizenship, and it may contribute to campaigns or ballot issues as permitted by law and this policy. No contributions under Internal Revenue Code Section 527 will be allowed.

Failure to Comply

Failure to comply with Company policies and procedures, including failure to report the noncompliance of others where required, may subject an individual employee to disciplinary action, up to and including termination.

Further Information

For further information regarding these procedures, contact Government Affairs.

Evergy 2020 Political Spending

The following pages identify 2020 spending by Evergy, Inc. and its political action committees (Evergy) on election candidates and parties, spending by Evergy to influence ballot measures, payments by Evergy to Internal Revenue Code 501(c)(4) organizations, trade associations and chambers of commerce, independent expenditures and spending by Evergy with Internal Revenue Code 527 groups.
